About the North Marine Workboat *Viking*

Viking is a 14-meter commercial workboat for hire or vessel charter. A fully outfitted dive support boat, ideal for performing commercial diving services, general marine support and scientific research. This hardy workboat is ready to supply your support vessel needs.

Viking is a twin-screw, with 3.5 ton towing capacity. In AMSA class 2C Survey, she can carry 14 persons onboard and sleep 8.

The North Marine workboat *Viking* is an aluminium charter workboat for hire with a 500kg lifting davit. She comes with a variety of optional extra equipment including, but not limited to, a landing barge, additional tender boats, air compressors, occupational dive equipment.

The workboat *Viking* is available for hire on both long-term and short-term commercial charters.
