

INSURANCE TOW OF "CASABELLA" WHITSUNDAYS TO TOWNSVILLE

July 2023

► Scope of work

Client: Australian Marine Consultants Pty Ltd (Insurance Agent)

North Marine was engaged to tow vessel 'Casabella' from Coral Sea Marina in Airlie Beach to slip at Rosshaven Marine in Townsville.

The 77-nautical-mile voyage required planning and consultation with insurance agents, regulatory bodies, marine surveyors and the receiving slipway. The 'dead ship' tow was manned as the vessel's bilges required monitoring. As a precautionary request by the agent, NM arranged 3 pumps to be onboard the vessel. Once in Townsville, NM coordinated local 3rd party workboats to assist in maneuvering the vessel into the slipway cradle. The tow was completed safely and without incident, despite challenging operating conditions.
