

CYCLONE 'JASPER' RECOVERY

▶ Scope of Work

Clients: Cook Shire Council, Douglas Shire Council,
Wujal Wujal Aboriginal Shire Council

2023/2024

Cyclone Jasper, a severe tropical cyclone that struck Far North Queensland in December 2023, caused widespread damage across the Cairns region and several Cape communities. The cyclone brought destructive winds, heavy rainfall, and flooding, leaving many areas in urgent need of support.

In response, North Marine stepped in to provide critical emergency freight services, delivering essential supplies to affected communities in the aftermath. For upcoming cyclone seasons, North Marine remains committed to supporting Far North Queensland with reliable and effective assistance when it's needed most.

▶ Discriminators

- Proven experience in emergency response freight services
- Expertise in supporting cyclone-affected communities
- Strong commitment to safety and compliance standards
- Effective coordination with local authorities and stakeholders
- Multi-tiered collaboration between government departments
- Demonstrated capability in delivering critical supplies during crises
- Detailed safety and performance reporting

▶ Outcome

North Marine provided essential emergency freight services to cyclone-affected Cape communities, ensuring the timely delivery of critical supplies. This response highlighted North Marine's reliability and commitment to supporting community resilience and recovery during natural disasters.
