About Us

North Marine is a leading marine support contractor based in Cairns, Queensland, Australia.

We offer a range of commercial marine services through our fleet of charter vessels, including tug and barge operations, offshore supply, shipping support, mooring installation, and research charters. We also operate a dedicated commercial diving division.

North Marine's head office is located at 'North Wharf', our own dedicated marine facility, strategically positioned within the Port of Cairns.

Our mission is simple: to support your productivity by delivering safe, efficient, and timely marine solutions.

All operations are fully insured, including WorkCover Queensland, vessel insurance, public liability, and commercial diving coverage. North Marine is also ISO-accredited under the 9001, 45001 and 14001 standards.

Our experienced project managers ensure smooth and efficient delivery, with support available for planning, logistics, and regulatory approvals. We pride ourselves on responsive communication and reliable service throughout every stage of a project.

- The Great Reef Census
- Cairns Local Marine Advisory Committee (LMAC)

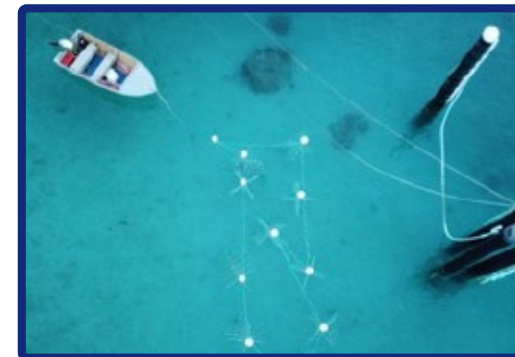

Sustainability, Community & Environmental Initiatives

Community engagement is a core value at North Marine.

We are committed to improving environmental outcomes, creating employment pathways, and supporting local organisations.

Our Commercial Dive Traineeship Program, the first of its kind in Far North Queensland, provides training and formal qualifications for young people and Indigenous community members, helping to create long-term careers in the maritime industry.

We also contribute to environmental research efforts, actively reduce our operational footprint, and embrace innovation through the development of new marine technologies.

Vessel Charters, Plant & Equipment

North Marine operates a versatile fleet of charter vessels and workboats, supporting projects across Australia's Exclusive Economic Zone (EEZ).

Our services cover a broad range of marine operations including towage, offshore supply, research support, diving, and crew transfer.

In addition to our vessels, we offer various marine plant and equipment for hire (such as lifting gear, professional dive equipment and ROVs) to support remote and in-water projects.

Vessel information and specification sheets are available to view and download on our website. However, not all assets are listed online. For a current overview of available vessels, equipment, capabilities, and rates, please contact us directly or scan the QR code below to explore our fleet, download specs, or submit an enquiry.

Towage Services

- Long-Range / Ocean Towing
- Harbour Towing
- Tug & Barge Combinations
- Tug Assist Operations
- Tug Escort
- Barge Mobilisation
- Vessel Towing
- Pontoon Towing
- Helipad Towing
- Offshore Support & Supply

Towage & Tugboat Services

North Marine delivers towage and tugboat services across Australia and the wider Pacific region.

Our fleet includes tugboats suited for harbour towage, long-range ocean towing (with capability up to 3,000 nautical miles), and tug and barge combinations. We have a strong track record in remote area supply and logistics.

All vessels are crewed by experienced Masters, mates, engineers, and deckhands, with pilotage exemptions in place where required.

Towage services are tailored to meet each client's specific needs, backed by detailed proposals, responsive support, and clear communication throughout.

In the Port of Cairns, our dedicated marine facility, 'North Wharf', offers a range of ancillary services including a roll-on/roll-off loading ramp, wharf access and berthage, waterfront and city-based storage, and moorings.

Diving Services

- Installation, Inspection, Repair & Maintenance for:
 - Marine Infrastructure
 - Moorings & Anchorages
 - Wharves & Jetties
 - Navigational Aids
 - Water Tanks
 - Vessels, Hulls & Anodes
- Marine Salvage
- Invasive Species Assessment
- Load Testing
- Project Management
- Scientific Research & Bathymetric Surveys
- ROV & Video Inspections
- Rope Supply, Splicing & Custom Fabrication

Commercial Diving Services

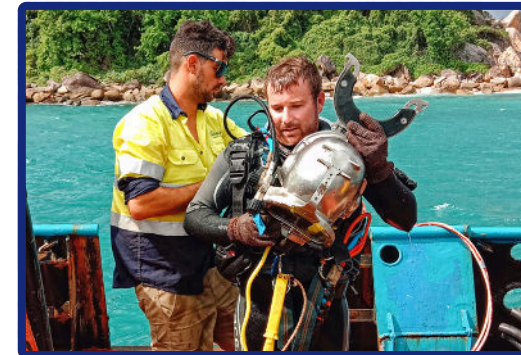

North Marine operates a dedicated commercial diving division, delivering a full suite of dive services across Queensland and the Torres Strait.

With over 35 years of experience in the Pacific region, we are a trusted contractor for ocean, harbour, inland waterway, dam, and reservoir diving operations.

Our capabilities range from routine marine inspections to complex, large-scale project delivery.

All commercial divers are ADAS qualified, and operations are conducted in accordance with AS/NZS 2299.1:2015, the Standard for Occupational Diving. All required insurances are in place.

North Marine's diving division is backed by our fleet of charter vessels, experienced marine personnel, and in-house trades. We also provide project consulting, equipment hire, and rope fabrication services.

Mooring Services

- Installation & Inspection of:
 - Vessel Moorings
 - Cyclone Rated Moorings
 - Pontoon Moorings
 - Helipad Moorings
- Compliance Certificates
- Permit Advice & Assistance
- Ongoing Maintenance
- Mooring Re-Locations
- Mooring Hardware Supply
- Load Testing
- Rope Supply, Splicing & Custom Fabrication
- Environmentally Friendly Anchorages

Mooring Capabilities

North Marine is a trusted specialist in mooring and anchorage solutions across Queensland.

We manage every stage of the mooring process - from design, supply and fabrication to installation and ongoing maintenance.

With over 30 years of experience, mooring consultancy has long been a core part of our business. Our expertise is backed by ISO-certified systems, ensuring high standards of quality and assurance.

Our capabilities cover all types of installations, from small swing moorings to large-scale commercial and cyclone-rated systems. We supply and install a range of mooring products including clump weights, screw moorings, and environmentally friendly anchor solutions.

All diving works are performed by ADAS-qualified commercial divers in accordance with AS/NZS 2299.1:2015, with all relevant insurances in place.

We also offer ongoing maintenance programs, hardware supply, splicing, and custom rope fabrication; supported by our fleet of work vessels and skilled in-house trades.

 - Machinery
 - Vessels
 - Raw Materials
 - Shipping Containers
- Load & Offload Facility
- Deep Water Access
- Roll-On/Roll-Off Ramp
- Barge Operations
- Powered Berthage
- Precast Facility
- Cairns Inlet Moorings

▶ North Wharf in Cairns, Queensland

North Wharf is North Marine's privately owned marine facility and the location of our head office, situated in the Port of Cairns.

This multi-purpose shipyard supports all of North Marine's commercial vessel operations and is conveniently located away from the more congested areas of the Port. Positioned on the east side of Cairns Inlet, it's approximately 30 minutes by road from Portsmith or just 5 minutes by boat.

North Wharf is ideally suited for use as a raw material and cargo load-out point, a holding yard, or a precast facility for infrastructure projects.

The site offers deep water access at all tides, powered and unpowered berthage, and a roll-on/roll-off ramp for barge and cargo operations. Moorings are also available in the Cairns Inlet.

Flexible leasing options are available on both short and long-term agreements.

For rates and availability, please contact us directly.
