- Vessels
- Shipping Containers
- Commercial Storage
- Storage Shed Facilities

Roll-on-Roll-Off Ramp

Vessel Berthage

Project Logistics

Loading & Unloading

Inlet Moorings For Rent

Lease Options

North Wharf is North Marine's own dedicated marine facility, located on the waterfront within the Port of Cairns.

Covering approximately 2,800 square metres, the site offers extensive space for freight, cargo, machinery, and container storage, along with large undercover storage sheds.

The facility provides deep-water access at all tides and features a ramp suitable for roll-on/roll-off and barge operations.

North Wharf also includes wharf access for loading and unloading, vessel berthage, shore power, and moorings within the Cairns Inlet.

Conveniently located, it's approximately a 30-minute drive from the Portsmith Marine Precinct or just 5 minutes by boat.

Flexible lease options are available on both short- and long-term agreements. Contact us to discuss rates and availability.
