Sea Horse is a 67 foot (20.44 meter) vessel built to comply with NSCV Code for 3B, 2B, and 2D survey classes.

Reliable and economical to operate, she reaches a top speed of 23 knots and cruises comfortably at 18 knots.

With a fuel capacity of 9,000 liters and an onboard desalination unit, Sea Horse is well suited for extended operations across a variety of commercial environments.

Accommodation includes a spacious aft cabin fitted with four bunks and two large single beds. The forward focsle serves as a flexible area for storage and work, enhancing the vessel's adaptability on the job.
