Scientific Research, Monitoring & Management

Dive Support Vessel

Extended Range Operations

Offshore & Remote Work

Liveaboard Charter

Launch & Crew Transfers

Lady Ningaloo is the ultimate luxury liveaboard dive boat bringing a touch of comfort.

The vessel is a 82ft (24m) catamaran extensively refitted in 2021, which can accommodate 18 guests in 9 double/twin cabins.

The advanced catamaran design ensures enhanced stability while only drawing 1.85m of water allowing access to hard to reach parts of the reef and to tuck into shallow bays.

The vessel is extremely capable with high clearance tunnels allowing for safe and comfortable open ocean passages, while reducing water noise on the hull.

Lady Ningaloo is capable of speeds up to 25 knots and a cruising range of 1800 nautical miles. Using only 40 liters an hour cruising at 10 knots this is an environmentally economical speed. Indoor areas are air-conditioned and outdoor areas (excluding sundeck) are shaded.
