Extended Range Operations

Offshore & Remote Work

Liveaboard Charter

Launch & Crew Transfers

Komodo Liveaboard is a dive boat bringing a touch of comfort.

This 82ft (24m) catamaran has been extensively refitted in 2010 and accommodates up to 18 personnel in 9 cabins.

With its advanced catamaran design, Komodo ensures superior stability, allowing access to remote areas of the reef and the ability to tuck into shallow bays.

To support extended operations in environmentally sensitive areas, Komodo is equipped with a wastewater treatment plant compliant with the latest MARPOL regulations, two desalination units, two generators, and a commercial galley and mess.

The M.V. Komodo has undergone regular modifications, focusing on continuous improvements that enhance safety, comfort, and functionality.
