About Us

North Marine is a leading marine support contractor based in Cairns, Queensland.

We deliver a wide range of commercial marine services through our fleet of charter vessels, including towage, offshore supply, shipping support, mooring installation and research charters. We also operate a dedicated commercial diving division.

Our head office is located at North Wharf, our purpose-built marine facility within the Port of Cairns.

Our mission is simple: to support client operations through safe, efficient and reliable marine solutions.

All operations are fully insured, including WorkCover Queensland, vessel insurance, public liability and commercial diving coverage. North Marine operates under an integrated management system aligned with ISO 9001, ISO 14001 and ISO 45001 standards. Our experienced team provides end-to-end project support, including planning, logistics and regulatory approvals, with a strong focus on clear communication and reliable delivery.

North Marine is committed to providing inclusive and accessible services wherever reasonably practicable. We consider accessibility in the planning and delivery of our operations and aim to provide safe and equitable access for people of all abilities.

- The Great Reef Census
- Cairns Local Marine Advisory Committee (LMAC)

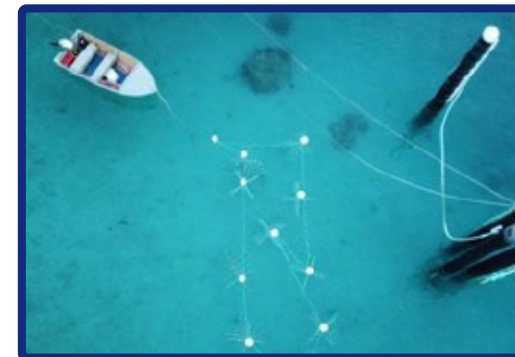

Sustainability, Community & Environmental Initiatives

Community engagement is a core value at North Marine.

We are committed to improving environmental outcomes, creating employment pathways and supporting local organisations.

Our Commercial Dive Traineeship Program, the first of its kind in Far North Queensland, provides training and formal qualifications for young people and Indigenous community members, helping to create long-term careers in the maritime industry.

We also contribute to environmental research efforts, actively reduce our operational footprint and embrace innovation through the development of new marine technologies. North Marine recognises the impacts of climate change on marine environments and incorporates practical measures to reduce emissions, improve efficiency and support sustainable operations.

Towage Services

- Long-Range / Ocean Towing
- Harbour Towing
- Tug & Barge Combinations
- Tug Assist Operations
- Tug Escort Services
- Barge Mobilisation
- Vessel Towing
- Pontoon Towing
- Helipad Towing
- Offshore Support & Supply

Towage & Tugboat Services

North Marine delivers towage and tugboat services across Australia and the wider Pacific region.

Our fleet includes tugboats suited for harbour towage, long-range ocean towing (with capability up to 3,000 nautical miles) and tug and barge combinations. We have a proven track record in remote logistics and supply operations.

All vessels are crewed by experienced Masters, mates, engineers and deck crew, with pilotage exemptions in place where required.

Towage services are tailored to each project, supported by detailed planning, responsive communication and reliable delivery.

At our North Wharf facility in the Port of Cairns, we also offer roll-on/roll-off-access, berthage, storage and mooring solutions.

Diving Services

- Installation, Inspection, Repair & Maintenance for:
 - Marine Infrastructure
 - Moorings & Anchorages
 - Wharves & Jetties
 - Navigational Aids
 - Water Tanks
 - Vessels, Hulls & Anodes
- Marine Salvage
- Invasive Species Assessment
- Load Testing
- Project Management
- Scientific Research & Bathymetric Surveys
- ROV & Video Inspections
- Rope Supply, Splicing & Custom Fabrication

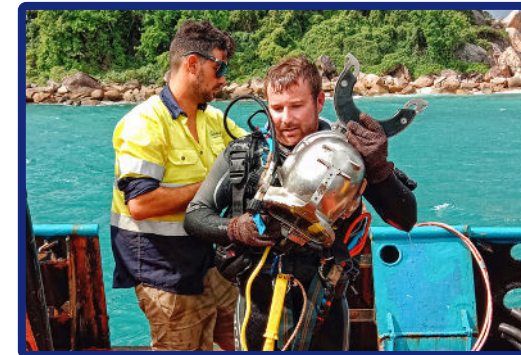

Commercial Diving Services

North Marine operates a dedicated commercial diving division, delivering a full suite of dive services across Queensland and the Torres Strait.

With over 35 years of experience in the Pacific region, we are a trusted contractor for ocean, harbour, inland waterway, dam and reservoir diving operations.

Our capabilities range from routine marine inspections to complex, large-scale project delivery. All divers are ADAS qualified and operate in accordance with AS/NZS 2299.1:2015, the Standard for Occupational Diving. All required insurances are in place.

Our diving operations are supported by our fleet of vessels, experienced marine personnel and in-house trades. We also provide project support, equipment hire and rope fabrication services.

Mooring Services

- Installation & Inspection of:
 - Vessel Moorings
 - Cyclone-Rated Moorings
 - Pontoon Moorings
 - Helipad Moorings
- Compliance Certification
- Permit Advice & Assistance
- Ongoing Maintenance Programs
- Mooring Relocation
- Mooring Hardware Supply
- Load Testing
- Rope Supply, Splicing & Custom Fabrication
- Environmentally Friendly Anchoring Systems

Mooring Capabilities

North Marine is a trusted specialist in mooring and anchorage solutions across Queensland.

We manage the full lifecycle of mooring systems, from design, supply and fabrication through to installation, certification and ongoing maintenance.

With over 30 years of experience, mooring consultancy remains a core part of our business. Our work is supported by ISO-certified systems, ensuring consistent quality, compliance and reliability.

Our capabilities cover a wide range of installations, from small swing moorings to large-scale commercial and cyclone-rated systems. We supply and install a variety of mooring solutions, including clump weights, screw moorings and environmentally responsible anchoring systems.

All diving works are performed by ADAS-qualified commercial divers in accordance with AS/NZS 2299.1:2015, with all relevant insurances in place.

We also provide ongoing inspection and maintenance programs, hardware supply, load testing and custom rope fabrication, supported by our fleet of vessels and experienced in-house team.

North Wharf

- Cairns Inlet Mooring Availability

▶ North Wharf in Cairns, Queensland

North Wharf is North Marine's privately owned marine facility and operational base within the Port of Cairns

This multi-purpose facility supports all vessel operations and is strategically located away from high-traffic port areas. It is approximately 30 minutes by road from Portsmith or 5 minutes by boat.

North Wharf is well suited as a cargo load-out point, holding yard or precast facility for infrastructure projects.

The site offers deep water access at all tides, powered and unpowered berthage and roll-on/roll-off capability for barge operations. Moorings are also available within the Cairns Inlet.

Flexible short and long-term leasing options are available.

For rates and availability, please contact us directly.
