

OFFSHORE PERSONNEL SUPPORT WILLIS ISLAND, CORAL SEA

► Scope of Work

Client: Aestra

2026

North Marine was engaged by Aestra to provide marine transport, offshore accommodation and operational support for personnel undertaking weed management activities on Willis Island in the Coral Sea.

Using M.V. Komodo as the primary support vessel, North Marine transported personnel between Cairns and Willis Island and provided onboard accommodation, catering and logistical support throughout the project. Daily tender transfers were undertaken between the vessel and the island, enabling personnel to safely access the worksite while remaining accommodated offshore.

Explore our website to discover a diverse portfolio of our projects.

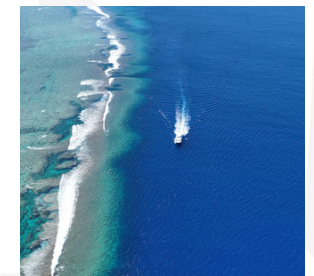

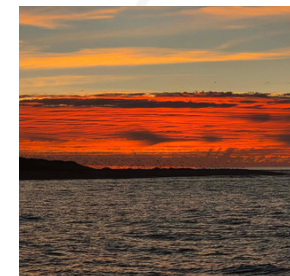

► Discriminators

- Proven experience operating at Willis Island and the Coral Sea
- Offshore accommodation vessel with onboard catering
- Dedicated tender transfer capability
- Experienced Coral Sea crew
- Strong logistical planning and coordination
- Remote area operational capability
- Established safety and environmental management systems

► Outcome

North Marine successfully delivered offshore accommodation, marine transport and daily personnel transfers, enabling Aestra personnel to safely undertake weed management activities on Willis Island.
